

# BLUE SKY LEARNING

What we did well !

EVERYONE HAS HAD SUCH A GOOD FIRST WEEK BACK!!

Welcome back everyone, we hope you had a relaxing, fun summer holiday. There has been a lot of new faces this week, Carl, Oliver, Kai and Keiyan. Staff too, Emme and Lee have joined the team.

Lots of stuff restarting next week like cooking and swimming so be sure to look out for those. We've had a weird week of warmth but now autumn has begun it should start getting cooler. Raincoats and outdoor shoes to walk in, are advised for the wet days. Possibly a change of clothes would be good to bring.

Don't forget your water bottles, even in the cold weather!!

the internet is everywhere. We use it to play games, for school, for talking with friends, music, TV, asking a question, shopping....The list is endless with what we use the Internet . But as wonderful as the net is it also has it's not so cool side. So we're going to share how to stay safe while enjoying all the things we love doing.

The first thing we should check before going on any website, downloading any app and playing any game: **IS IT AGE APPROPRIATE?** Things like movies, websites, music etc always have a age rating, which tells us if we're old enough to see and participate in said activity. Age ratings may differ depending on what country you're in but in the UK it generally falls between; Universal- suitable for all to 18+

It's important that we are checking this and if you're not sure, ASK AN ADULT !!!

Today I learned that WWW stands for the WORLD WIDE WEB ☐ Be safe, have fun!
